“A National Collaboration to Strengthen the Advanced Environmental Technology Education at Tribal Colleges”

An NSF-ATE funded project

REQUEST FOR PROGRAM PLANNING AND/OR IMPROVEMENT TECHNICAL ASSISTANCE SERVICES APPLICATION

_____ Yes, Our Tribal College is interested in being considered for the following Technical Assistance/Services.

Please check (X) the Technical Services area(s) in which you request assistance:
If you select more than one, please prioritize which one is more important by adding a numerical 1-5 to the X (for example X-1 for highest priority)

- Conducting Program Assessment for existing or new certificate/degree programs
- Conducting a Job Market/Labor Market Assessment
- Developing an Environmental Technology (or related) Jobs Chart
- Developing or improving a plan for Student Recruitment, Tracking and Retention
- Developing a local “Advisory Committee” for science/environmental degree/certificate program(s)

Please list the Program Certificate/Degree that you are requesting services for:

New Program Existing Program (please select)

Title of Program: _____

Certificate or Degree (please select)

If Existing, how long has it been in existence? _____

How many students currently enrolled? _____

If a new program is being considered, when do you hope to launch it? _____

How many faculty and/or staff from your college are dedicated to the program you reference in your application (both technical and general science), please list:

If your college is selected what is your and your colleagues' availability and what are the limitations to undertake this project with PETE in respect to your responsibilities between January and May 2009?

Please describe how you feel these Technical Assistance/Services will assist your Tribal College:

What do you expect to be the outcome of these services?
