

# 2008 SEET Workshop

## Post-workshop Survey - Participant Knowledge (7/18/08)

---

Please fill out this feedback survey and return to **ATEEC** on **Friday, July 18**. The data collected will be used in aggregate (in conjunction with a pre-workshop survey) to help determine participant learning during the workshop. Your name is necessary here only to compare the pre- and post-workshop data.

Name: \_\_\_\_\_

---

Now that you've completed the SEET workshop, please give us a rough estimate of your level of knowledge/expertise as an educator in the following areas. (To give you a baseline from which to rate yourself, assume that the "Average" rating means you'd feel comfortable teaching an introductory course or lesson on the topic to beginning technical students.) Circle the rating that applies to you for each topic.

### Climate change science

1 = No knowledge    2 = Some knowledge    3 = Average    4 = Knowledgeable    5 = Expert

### Sustainable energy technology

(Defined as ALL efforts that improve on current processes and develop new processes to produce energy that is more efficient, cleaner, and more secure)

1 = No knowledge    2 = Some knowledge    3 = Average    4 = Knowledgeable    5 = Expert

### Renewable energy, general

1 = No knowledge    2 = Some knowledge    3 = Average    4 = Knowledgeable    5 = Expert

### Solar PV energy

1 = No knowledge    2 = Some knowledge    3 = Average    4 = Knowledgeable    5 = Expert

### Solar thermal energy

1 = No knowledge    2 = Some knowledge    3 = Average    4 = Knowledgeable    5 = Expert

### Wind energy

1 = No knowledge    2 = Some knowledge    3 = Average    4 = Knowledgeable    5 = Expert

### Bioenergy (includes biofuel, biodiesel)

1 = No knowledge    2 = Some knowledge    3 = Average    4 = Knowledgeable    5 = Expert

### Energy efficient building technology (equipment & operations)

1 = No knowledge    2 = Some knowledge    3 = Average    4 = Knowledgeable    5 = Expert

---

Thanks for your input.
